Art Unit: 1742

1. The Examiner has carefully considered Applicant's Response of 3/24/03. Upon further review of the reference, the Examiner finds that Klem et al. only disclose wherein the Me_5Si_3 is formed as a result of the reactive sintering, and not wherein Me_5Si_3 is a part of the parent substance e.g. the initial mixture. The rejection based on Klemm is therefore withdrawn. The Examiner makes a new rejection which is accordingly, not made final.

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 34 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The meaning of the term "is retained" is unclear. Does Applicant mean after gas pressure sintering or is this the amount of the initial mixture?

4. Claims 28-33, 35-47 and 49-54 are allowable.
